

Think Fleet First.

HVAC and Energy

Our leadership in the high efficiency boiler system and large pump market includes design assistance, fully integrated system design, and controls and instrumentation.

BOILERS & HEAT TRANSFER

Aerco International

High efficiency modulating and condensing gas-fired fire-tube hydronic heating boilers. Vertical heat exchangers for clean steam, high temperature hot water & steam-to-water applications.

Sellers Engineering

Heavy-duty gas and dual-fuel fired fire-tube hydronic and steam heating boilers with 20 year warranties, working pressures up to 300 PSI. Boiler feed and de-aeration systems.

Ajax Boiler

Gas-fired copper tube boilers. Horizontal clean steam generators, fully packaged with controls.

Tekworx

Plant master & optimization systems; touch screen graphical interface, web based monitoring & control.

Heat-Fab

UL1738 listed AL29-4C stainless steel venting and chimney liners for high efficiency gas-fired appliances.

Plate Concepts

Plate & frame heat exchangers for high pressure and free cooling applications, pressures up to 400 PSIG.

Spencer Turbine

Hermetically sealed natural gas boosters, NYC approved, with controls and accessories.

Standby Systems

Propane vaporizer-mixer and delivery systems for dual-fuel and alternate fuel source applications.

HEAT TRACING & LEAK DETECTION

Raychem Heat Tracing

Self-regulating heat tracing and controls for freeze protection on exterior piping, snow & ice melting.

Raychem Floor Warming

Mid-intensity floor warming systems for floor heating and tile warming applications.

Tracetek Water and Oil Detection

Water detection for data centers, comm. equipment rooms, trading floors and critical workspaces.

Oil and chemical detection systems for underground piping and storage tanks.

HYDRONICS

Peerless Pumps

Industrial-grade HVAC pumps up to 500 PSIG working pressure and 23,000 GPM. Horizontal split case, end suction, inline and vertical turbine designs.

Weinman Pumps

Splitcase, inline, end suction pumps for flows up to 9000 GPM, working pressures up to 400 PSI.

SyncroFlo

Variable speed drive sequencing and control systems. Custom fabricated packaged HVAC pumping systems, factory tested.

Amtrol

ASME rated expansion tanks & air separators.
